Midwife or Doctor's Name: can't give names since ban is in place, but some docs unofficially support vbac3. Do you know the name of a doctor who does do VBACs?: No4. Is that a formal policy or is it just the way the doctors have decided to practice?: Formal VBAC ban6. What would happen if I arrived at the hospital and refused a cesarean?: Nothing, can not be forced to have surgery7. Comments: Sign a refusal form. I was actually encouraged to do this and was told that some of the doctors are supportive of vbacs but can't openly support you, you must refuse to have a cesarean. Cautioned me against using siloam springs memorial hospital because they are small and not equiped to handle certain situations (even though they allow vbac)
